

PETROBUILD 6000L CUBE DIESEL TANK

Technical Data Sheet

Product Overview

The Petrobuild 6000 Litre Cube Diesel Tank is a high-capacity, heavy-duty, and fully bunded fuel storage solution designed for large-scale industrial, mining, and bulk fuel applications. Built for durability, safety, and operational efficiency, this tank offers maximum storage capacity while maintaining a transportable and stackable cube design.

Parameter	Specification
Fuel Type	Diesel
Gross Capacity	6,081 Litres
Safe Fill Capacity	6,000 Litres
Tank Type	Double-wall (bunded)
Inner Tank Thickness	3 mm steel
Outer Tank Thickness	3 mm steel
Total Mass (Empty)	±1,659 kg
Design Standard	AS1940
Manufacturing Standard	AS1692
Hydrostatic Test	Gross level +150 mm

Design Features

- Double-Wall Construction
- Provides integrated spill containment and environmental protection.
- Heavy-Duty Steel Fabrication
- Engineered for durability in harsh operating conditions.
- Cube Form Factor
- Optimized for transport, stacking, and space efficiency.
- Lockable Equipment Hatch
- Secure top access for pump and dispensing equipment.
- Forklift Pockets & Lifting Points
- Enables easy handling, relocation, and deployment on-site.
- Integrated Equipment Compartment
- Houses pumps, meters, and fittings safely within the tank footprint.

Dimension	Size
Length	2290 mm
Width	3570 mm
Height	1281 mm

(Final dimensions may vary slightly depending on fittings and configuration.)

Applications

- Construction sites
- Mining operations
- Agriculture & farming
- Fleet refueling
- Backup fuel storage

Compliance & Safety

- Designed in accordance with AS1940 (flammable and combustible liquids storage)
- Manufactured to AS1692 standards
- Fully bunded for environmental protection
- Suitable for safe transport and on-site fuel management

Optional Equipment (Typical)

- 12V / 24V / 220V pump systems
- Flow meter
- Automatic nozzle
- Fuel management system integration
- Filtration systems
